

Time adjustment

Adjusting the time on your LB2300 is a simple procedure. Throughout the programming procedure, refer to this diagram for button identification:

1. Switch the machine off and back on.
2. A timer symbol will be displayed, while it is, press ENTER until the display shows 1. Program.
3. Press UP. The display will show 2. Service.
4. Press Enter 6 times, the display will now show 2.1 Date and time.
5. Press ENTER twice, the display will read 2.1.1 Time along with a ^ cursor under the first digit.
6. Using UP/DOWN, change the value as required.
7. Press ENTER to scroll to the next digit and repeat.
8. Finally press ENTER so the cursor disappears. Only now will the new time be stored.
9. Turn the machine off and on and wait until ready for use.
10. Enjoy a coffee!
